AST Recognized as Oracle Cloud Excellence Implementer (CEI) for FCCS, EPRCS

Lisle, IL January 16, 2019: AST today announces that it has earned Oracle Cloud Excellence Implementer (CEI) status for Oracle Financial Consolidation & Close Cloud Service (FCCS) and Enterprise Performance Reporting Cloud Service (EPRCS), demonstrating its expertise and project success with these Oracle EPM applications.

As an Oracle CEI, AST offers its customers a team of highly skilled and qualified professionals with a strong history of successful Oracle cloud implementations.

“AST has been providing elite EPM services to our valued clients for well over a decade. This recognition as one of Oracle’s select few Cloud Excellence Implementers in this space is acknowledgement that AST’s certified team is highly adept at successfully delivering Oracle’s EPM Cloud solutions to our customers and modernizing their business processes in even the most complex scenarios,” says Patrick Callahan, Vice President of EPM and Analytics at AST.

The CEI program was developed to provide customers with a clear, objective, and informative view of partner qualifications for implementing Oracle SaaS solutions. Through the OPN Solutions Catalog, customers are now able to identify and engage with partner firms that best align to their specific project needs. Access to this information helps customers minimize implementation risk, quickly adopt new cloud functionality, and realize the maximum potential of the Oracle Cloud.

AST Corporation is a Platinum level member of Oracle PartnerNetwork.

About the Oracle Cloud Excellence Implementer (CEI) Program

The Oracle Cloud Excellence Implementer (CEI) Program is focused on driving customer success with Oracle Software as a Service (SaaS) products. This program identifies, recognizes, and differentiates highly qualified consulting firms that demonstrate ongoing expertise, successful track records, and superior customer satisfaction in Oracle Cloud implementations by specified geography and cloud service module. Oracle launched the CEI Program at OpenWorld 2017 to accelerate customers’ digital transformation in the cloud.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.

About Applications Software Technology (AST) LLC

Established in 1995, AST is an award-winning full-service enterprise systems integrator, serving clients in the Public and Commercial Sectors for more than two decades. Clients look to AST for leadership and assistance in systems integration, business process redesign, project management, systems administration, and training.
